

ANYA DENNISON

(941)961-4387 | aad238@cornell.edu | Sarasota, FL | www.linkedin.com/in/anya-dennison

EDUCATION

Cornell University - Duffield College of Engineering
B.S., Electrical and Computer Engineering (intended)
3.6 GPA | Dean's List Spring 2023, Cornell Tradition Fellow

Ithaca, NY
Expected May 2029
Enrolled: Aug 2022-May 2023; Aug 2026-Present

Engineering-Relevant Coursework: Introduction to Computing (Python); Calculus for Engineers; Physics I: Mechanics and Heat; Engineering Operations: Data Science and Decision Making; General Chemistry I

Pine View School
AP Scholar with Distinction, National Merit Commended Scholar
GPA: 4.0 unweighted / 5.05 weighted GPA

Osprey, FL
Aug 2011-May 2022

PROJECT EXPERIENCE

Food-Recovery Coordination App: Kappa Theta Pi, Cornell

Sep 2026-Present

- Building an app with the Food Recovery Network to replace group-chat tracking of donations and pickups; conducting user interviews and translating operational needs into product specifications and requirements.

Science Olympiad, Circuit Lab and Agricultural Biotechnology

Apr 2021

- Applied DC circuit analysis, measurement, Ohm's and Kirchhoff's laws, resistor networks, and RC circuits analysis. Placed 4th statewide and 3rd regionally in Circuit Lab and 2nd statewide in Agricultural Biotechnology.

Cornell Product Development, FDSC 1101

Dec 2022

- Developed the winning concept for a themed product-design challenge, advancing from ideation through product development; the concept was selected for commercial production and sale at the Cornell Dairy Bar facility.

PROFESSIONAL EXPERIENCE

North American Food Systems Network, Center for Transformative Action

Ithaca, NY

Member Engagement Manager

Sep 2026-Present

- Leading implementation of Circle as the organization's digital community infrastructure; mapping user needs into platform structure, onboarding, automations, permissions, and workflows through ongoing participation.

Social Equity Through Education (SEE) Alliance

Sarasota, FL

Chief of Staff & Co-Founder

Apr 2022-May 2026

- Co-founded and scaled a student initiative into a \$1M+ national nonprofit; led day-to-day operations, programs, and campaigns across 30 staff, 2,000 volunteers, and 6,000+ students and partner organizations nationwide.
- Built systems for hiring, training, finances, compliance, and reporting; coordinated cross-functional programs across all 67 Florida school districts and operated SEE Space, a youth community and civic education center.
- Secured a \$1M grant as part of the two-person founding team; SEE's work earned national media coverage and recognition from the Biden White House and United States Secretary of Transportation Pete Buttigieg.

The Farmlink Project

Los Angeles, CA

Nationwide Food Program Lead

Jun 2022-Dec 2023

- Redesigned operational workflows and task-tracking systems to scale a student team from 10 to 30 members, increasing weekly partner outreach from approximately 200 to 600 calls across nationwide food-recovery efforts.
- Drove a 200% increase in quarterly food donations through partner outreach and operational improvements, helping Farmlink surpass its 100-million-pound food distribution milestone across its nationwide network.
- Secured Farmlink's largest individual food donation of 2022 and coordinated end-to-end logistics for 21 truckloads totaling approximately one million pounds of avocados across multiple receiving partners.

SKILLS

Technical: Python, DC circuit analysis, circuit troubleshooting, Excel/Google Sheets, Airtable

Tools: Notion, Asana, Monday.com, Trello, QuickBooks, Wix/WordPress, Mailchimp, Canva

Methods: User research, product requirements, process design, project management

Languages: Russian (native), French (intermediate)
